

To: Events By Jaclyn

We got married on December 1, 2018. We had a wedding in a big industrial building in Gastonia, NC for 185 people. We used Jackie as our month of coordinator & she was a complete lifesaver.

Jackie was always available to me for any questions or concerns I had. You don't realize until the month of your wedding how many last minutes changes you are going to want to make and how many little details still need to be handled, but Jackie was there to do it all for me!

She is very prompt and punctual. She checked in with all of my vendors to confirm their arrival time for set up and take down. During the rehearsal she made sure everyone was not only going through the motions but also actually paying attention.

No matter how old people are, when you get a bridal party together, they usually want to cut up more than they do listen so I would not recommend trying to do the rehearsal without a coordinator. The day of was a smooth breeze.

Not many people can say there wedding was perfect without a single hiccup, but mine was thanks to Jackie. She made sure all vendors were there on time. Before the ceremony began she made sure everyone was in their order and lined up ready to go.

During the ceremony she was hidden at the end of the isle and telling all the bridesmaids and groomsmen when it was their turn to walk that way everything looked very uniform. In the reception she was sure to go by the timeline she created with me that way we didn't miss anything we had told her we wanted to do. Believe it or not, it is very easy to lose track of time when you are

having fun and talking to what seems like a million people. She even went out of her way to ask me if I needed anything like a drink or different shoes if my feet were hurting.

After the reception was over, she made sure the truck was placed for the exit, passed out the sparklers, and sent us on our way. Jackie was there from beginning to end. I would most definitely recommend her to anyone planning a wedding. No matter how big or small, we know she can handle it.

*Our love and appreciation: Erin & Bradley*
